**HOW GUESTS REVIEW US**

The tour was truly unforgettable, it was our favourite trip of our stay in Oz and we did quite a few and are fussy clients. We were so impressed. Every detail was covered with a fantastic sense of humour.  
*Lana and Cam Miller*

Our guide kept us laughing while continuously filling our minds with amazing facts about the rainforest. I am a wildlife Biology major and am always looking for nature or wildlife tours and yours was easily the best tour that I have ever been on.  
*Samantha Gordon*

On reflection, I could have probably saved money, booked a tinny down the Daintree, crashed through some rainforest and hiked up the highway to Cape Trib myself. But, there's no way I could have come up with half the stuff our guide said and did. That's where the money was, and I'd recommend this trip to anyone.

**MEDIA TESTIMONIALS**

James Moore, **Editorial Consultant HK**  
*'Sometimes you get a bus load of people, sometimes you get a 4x4 with only five or so others. Needless to say, the latter is infinitely preferable. If mine was anything to go by, you'll be guided by someone who's not only got the knowledge of a botanist, a naturalist and an ornithologist all rolled into one, you'll have a good laugh too.'*

#### The Noah Valley is a rare and remarkable place.

This World Heritage Listed private property is positioned right at the heart of the Daintree Rainforest. Surrounded by National Park it has been selected by UNESCO as a World Heritage listed site for having outstanding universal value, with rare and endangered animals and plant species. It is described as a 'refugium' where species have survived undisturbed for millions of year. Some plants species found here are not known to exist anywhere else.

A botanical expedition in the 1960's led ecologists to describe this place as – 'the cradle of the new thinking and the new attitudes to Australia's tropical rainforests'.
